Dedication

To the Moorish Community all over this so-called planet earth.

Acknowledgements

I would like to thank the Moorish community as a whole for allowing me to speak at their various Temples, for teaching me and allowing me to grow under my own vine and fig tree.

Above all I would like to thank our Father-God Allah for leading me into the light of Islam. I would also like to thank all the divine Prophets who have come by the will of Allah to uplift falling humanity.

Preface

Islam,

In Peace and Love I write in the name of the one true God Allah, the Creator, the Sustainer, and Master of all worlds.

These letters were writing between the time frame of 2013-2014 they are being published in book form for both those in the Community and those who are curious about the community. These letters deal with issues and topics that come up in the life of any community. Some of these letters deal with theological issues others deal with direct responses to real life situations and others are of general guidance.

If you are new to the Moorish Community then I hope this will spark a deeper interest in the Science. If you are a long-term member then I hope these at least shed some new light on familiar subjects.

Each letter was writing with great care and with the idea of being spoken since they were originally sermons throughout the aforementioned years and are to be used as such. If you wish to use them as an example or for a sermon please feel free to use them, expand on them, and allow others to do the same.

The Moorish Community is one that is growing by leaps and bounds I see no end to its growth.

May you be guided and blessed by Allah in all that you do.

A bicycle ride from Boston to Saudi Arabia

Dear Community

As I sit in Siren Café looking like a bag of donuts watching people come in order and go about their day, there lives I can't help but to think about the events that happened just over a week or so ago. The barricades on Boylston Street are coming down and very soon life will continue there as well. People will walk by where the bombs went off where the blood was shed. At first it will seem weird people whispering among themselves akin to a funeral or when people walk through a graveyard but give it enough time and life will serge through it the way blood brings life to the body.

During this week much has been said about Islam mostly in the negative. Some in there ignorance are saying how the Muslim community needs to say more do more be more active. To these people I have to say what research have you done? Many Muslims did speak out but got very little airtime. This is not the fault of the people but of the media that you trust so much. Do you think it is the interest of the United States government to paint Muslims in any positive light? At the present moment it's not because they are the current boogiemen for society. On the other hand Muslims must look at there own community and ask why does this sort of behavior seem to be playing out over and over again. Why are these kinds of people either flocking to or becoming deranged among a community of peace.

For those on the outside it must be a confusing thing to see and hard to believe anything. What you can come to know is that Islam teaches peace with all of humanity and with the entire universe. Islam also teaches self-defense because you can only keep peace by everyone knowing they have this right to defend ones being. We find this teaching throughout all the Holy Scriptures. Islam is also a complete way of life it is the ultimate science. I am sure those on the outside would be shocked to read this but this is true and should be true for all faiths. Just like all faiths some people twist the self-

defense teachings to mean much more than they actually do. Creating mythology to support there twisted views it is this that the Islamic community must purge itself from. At least from its current level unfortunately every group must do this from time to time.

What I would like to say to those of other faiths is very simple look at you though you claim to be pure many Christians have done things that would make ones skin crawl, so haven't Jews, Hindu's, Buddhists and many others. Just weeks before this incident a person of the Christian faith shot a school full of children while another one shot up a movie theater. I mention these because these are the two most recent. Another question to be asked is why is it when a deranged person of the Islamic faith does this it becomes a much bigger deal? Is it because the crusades for many are still raging?

While we look over the Islamic globe we see it growing and changing more than ever before. A new golden age is upon us but we must seize what others are trying to steal from us. It is in these dark days that our light and our voices must be heard over and above the bombs. This is defending the way of God in a much more beneficial matter than blowing one another away.

I am not sure if this little rant will help anyone out or if anyone cares to what I have to say but I felt the need to write it so here it is for all to see.

Love, Truth, Peace, Freedom, Justice, and Beauty are our way.

May Allah bless everyone who reads this and shine his light on the world.

Sincerely,

Abdul Batin Osman Bey
Imam of the al-Khidr Mosque

A Deeper look into XLVII

Islam,

In this Chapter Noble Drew Ali tells the inhabitants of Africa who they are and where they come from. In this article I would like to explore some of the deeper meaning of what these Nations represent on a Metaphysical level so that one may have a better understanding of what this Angel was saying to us.

The word Canaan itself means lowland, which represents those who are merely in body consciousness in time this land would become the Promised Land, which represents the Spiritual consciousness showing that the lost will be found and redeemed.

The inhabitants of Canaan were the Canaanites who would be expelled from there own land. One may ask why would Noble Drew Ali mention these people first the reason why as I can tell is because that's what the slave community went through. The Canaanites are a direct parallel to the slave trade being expelled from ones homeland and being forced to go to another land, which originally was not meant for you. The reason why Allah took the land from the Canaanites was because they forgot themselves meaning their Higher Self and started to live for only the material land and the lower self. A pattern that happens throughout world History is if you life for the Higher Self One with your Creator you will strive but ounce you start living for the ways of Satan Our Father God will strike you down. This is also a warning to all people today not to be like the Canaanites who had a great possession but never fully appreciated it until it was too late.

Next he says that Old Man Cush who came from Canaan and his family were the first inhabitants of Africa. Cush, which means fire like which represents the passion they now felt but the passion, was no longer for the sensual flesh. Now that they are entering into the new land they are turning back to the ways of Truth, the ways of their Father God Allah. It is the children of Cush in Africa who become

perfect in the sense that they connect themselves to the Higher Self they will become uplifted establishing greatness in this land. This is showing all those who brought to America as slaves that they too can do the very same thing. Not just slaves but all oppressed people can go from Lost to Found just as the children of Old Man Cush.

After came the father of Cush named Ham but because Ham and those closest to him were still in the mode of Sensuality they were named Ethiopia that means divisions. Thus those who were in the mode of Higher Self separated themselves from those of the lower self and placed them in what we would call Ethiopia. Since they followed ham they did not seek truth but sought more darkness they for a time became undisciplined they had a different state of being this is another lesson that if you cannot uplift someone who is falling you can surround them with truth but on some level you must guard yourself from them, separate yourself so that you do not lose your heavenly estate. It would be a long time before Ethiopia would become a place of uplifting some of which began during the lifetime of Noble Drew Ali but he Knew that even Ethiopia must embrace the ways of Old Man Cush though the light of Christ did shine from that place, named Haile Selassie I.

The light of these inhabitants brought many from Asia to Africa. Asia has always been a place of great spirituality and Knowledge. Asia was the birthplace of mankind, at one time the entire world was called Asia but when the divisions came due to mankind leaving the Garden state those who clung to the Eternal truth kept the name Asia which means Dawn, Rise, and Beginning. This is why so many of the prophets came from Asia because that is source of all humanity. This is why I believe people always go back to Asia to find deep hiding secrets that have been lost by those who left the womb of all Civilization, Science, and religion.

Moab had to ask permission from the Pharaohs to enter the farthest parts of the Amexem Empire. The Moab has a very significant place because they embodied the balance of Mans two-sided nature. They had a perfect balance of physical and spiritual needs. This is why they were able to endure the travel to the farthest

points of the Empire. Of course they too had to go through trials of Carnality before they reached their balanced state of being.

The Amorite and Hittites went with the Moabites to the farthest points of the Amexem Empire. The Amorites were a strong people who enjoyed the mountains and rough living. They represent purification within the consciousness of the human family. They were also known to keep the flaming sword of Truth, meaning they lived to spread the Gospel of Allah among their brothers and sisters.

The Hittites may have not asked but been forced out, they were a weaker people that had a broken mindset. They represent the confusion of the mind. They were the doubters.

It is good for us to know and study these things because we can learn more about our brothers and Sisters by knowing were humanity has been. By understanding different mindsets we can better aide in the uplifting of the human family back to the Higher Self.

May Allah guide us in our efforts to spread his Good News. Amen.

Your brother in Islam

Abdul Batin Osman Bey

From the Imam (New Year)

Dear Moorish Family and Friends.

We have just begun a new year, a new cycle, and a new chance to bring the Kingdom of Allah on earth. In the previous year we have seen uprisings across the globe, an Apocalypse that we have all survived, and on some level a new spiritual awakening. Now that we are in a New Year let us continue to grow in Love and spread the Gospel of Islam (Peace) to whomever we meet by being an example of the pillars we hold dear to our hearts. Only by being an example of Love like the prophet Jesus was, will we usher in the true meaning of the Aquarian age.

May your new year be blessed,

Sincerely,

Imam Abdul Batin Osman Bey

A week for two great Prophets of Islam

In the name of Allah, the merciful, the peaceful

Glory be to you, Lord

Peace,

During this week the week of Passover, we are to turn our attention out to two great prophets of Islam, the prophet Moses and the prophet Jesus. It is the same week was the Exodus of the Israelites took place and the ministry of Jesus would come to a close.

What many people may not consider is these two prophets were two halves of the same coin. Moses came with teachings of Justice, and Freedom while Jesus came with the teachings of Love and Peace both well grounded in the Truth. Both of these men connected with the divine in ways that seems most other people would not dared to have done. These two Rabbis' were drawn out to save the Children of Israel. Moses was drawn out to save the children of Israel from an external enemy that being Egypt where as Jesus was drawn out to save Israel from the enemy of religiosity. Both are a testament to the saving grace of Allah. No matter what will come against you whether it be external or internal Allah has sent prophets to be your guide and help you in your times of troubles.

Both of these men spent time by themselves in deserts, hills, and mountains. They were great self-examiners, they both lead by example, both were humble, imperfect, and both submitted to the will of Allah not in a passive way but an active and engaging way. These two men are but an example of what a life with Allah can accomplish if we simply put ourselves completely in his hands allowing him to guide us were we need to be. Of there own free will they did the will of the Ultimate Creator.

When Jesus transfigured Moses was one of the men seen standing with Jesus. The lawgiver and the law liver standing face to face talking, discussing, what was, what is, and what would be before Jesus left this mortal realm.

We should strive to develop our consciousness as they did so that we too may overcome all obstacles and live a life of endless possibilities. So that we t may also be apart of the uplifting of humanity.

Praise is to God, Lord of the Worlds.

Another what?

Islam,

In the recent weeks many people have been asking me how can Noble Drew Ali be a prophet when Muhammad is the seal of the prophets? The answer may be simpler to answer than one thinks. Most of it is a misunderstanding in the terms being used and who used them. By clarifying what is truly being said one will see that the position of both Noble Drew Ali and that of Muhammad stay intact.

According to Noble Drew Ali himself He came to uphold the Science of Muhammad, and he was only bringing to light what was hiding from the Lost Asiatic Family of the world the so-called Negro. This being known we can now turn to the Moorish Questioner to then see if he was being honest or if he was lying about himself and his devotion to Islam.

5. Who is Noble Drew Ali? **He is ALLAH'S Prophet.**

Now the second you read this your mind is probably reeling saying uh huh he was a hustler, a liar, a thief, this proves that he was trying to replace Muhammad as the Seal of the prophets but before you get yourself full of twisted pride let us delve a little deeper.

6. What is a Prophet? **A Prophet is a thought of ALLAH manifested in flesh.**

Probably not what you thought but let us continue

038. What is an Angel? **An Angel is a thought of ALLAH manifested in human flesh.**

039. What are Angels used for? **To carry messages to the four corner of the world, to all nations.**

What is our Prophet to us? **He is an Angel of ALLAH, who is sent to bring us the Everlasting Gospel of ALLAH.**

Now we can clearly see what Prophet means in the context of the Moorish Science Temple of America. A prophet is an Angel who is a messenger. This upholds what Muhammad received in the Qur'an That other messengers will come after him. Also when we read in *Surah 4:152 But Allah will give rewards to those who believe in HIM and HIS messengers and make no distinction between any of them. God is most forgiving and merciful.*

(I would like to note that if I ever revisit this subject I would most likely take longer than I originally did and give it a deeper and more fuller explanation on the messengers and the prophets and how Noble Drew Ali did not violate the fact that Muhammad is the last prophet but it was an urgent response at the time it was written)

Babylon does not want your to love

Islam,

As I was driving around my car listening to the news thinking about the daily events and it occurred to me that this system is attacking one of our most vital pillars. That pillar is Love. As I thought about this I had to think why would Babylon attack love more so than any other pillar. At first it seemed strange to me because even the Babylonians want to be loved until I realized that it wasn't human Love that they were attacking but Spirit Love. Love of a higher degree because when they destroy spirit love it will A) keep mankind in mental slavery and B) keep people from knowing themselves thus keeping people from knowing our Father Allah. This would also destroy the very pillars of Islam in total because without our foundation none of the other pillars can be realized. Without Love you can never have Truth, without Truth you can never have Peace without Peace you can never have Freedom and without Freedom you will never have Justice. Instead what you will have is what we have now which is corruption pretending to be whole. In these days we have a false Civilization but everyday we are bringing back to the ways of our Ancient Forefathers.

Whenever we read scripture we must remember that not only does it pertain to the individual self but it also pertains to the Universal self meaning everything we do, think, ripples throughout the entire Universe. Now let's make some lemonade shall we.

Now love cannot be manifest until it had been prepared (Circle Seven 1: 22) so the firs thing we read about love is it must be prepared for otherwise it cannot come into being. This is true for the individual as well as society this society must prepare the way for love to become plain for all to know. How must we then prepare for Love? When we read scripture it tell us that the only thing that can prepare the way for Love is Purity (Circle Seven 1:22). It tells us all in one easy to read verse. Then it goes on to tell us that we have an

example of purity in John the Forerunner (Circle Seven 1:24). Now we have no excuse not to know purity because all one has to do is look towards John the Forerunner who was an example of Purity. If John the Forerunner does it do it for you all you have to do is look over at Marcus Garvey who was another example of Purity.

You see people are so caught up in there mistakes that Allah knows people needed to be shown in person what purity was suppose to be so he ordained John the forerunner do be that example. Just like Allah know people still need an example so he sent others to be examples for there people in there times and in ours we saw it in Marcus Garvey.

How does one become pure? This should be the next question that is on your mind. If it's not then where are you going? It takes steps to get from purity to love. The first thing we must do is kill four devils. I see you now shaking you head thinking I'm getting all-weird on you. The four devils are not some creature from so far off place, no; the four devils I'm mentioning are the four devils of self, which are Lust, Greed, Hate, and Envy. If you are not willing to do this how then can you get pure? Also, if your society is not willing to do this how can it be pure? Right now our society is completely based on, in line with the four devils. Everywhere you go this society is feeding you Lust, telling you is greedy, telling you who to or what to hate, and who to be envious of. This society never rests from shoving these devils down your throat but we must resist. We must make choices that will not only cause ourselves to stay away from these traps but will also lead our complete society down the path towards love. If not then we can't complain when all we get is devil-minded people continuing down the devil minded road. This is why we must protest, vote, and show this devil land the better way of being.

Ounce we killed the four devils then we can put into place Right Ethics. You cannot have the Science of Morals if you are immoral that is to say dancing with the devils. Neither can a society as you can plainly see by looking around you. The first thing is to learn how to properly think because what you think is what you speak, what you speak usually ends up being what you do which effects your livelihood. Livelihood is not just what you do for work but how you

view yourself, the larger human family, how interact with the larger human family, whether you find heaven or dwell in hell. It all starts with the mind and trickles down to all other aspects of your being. This is why the prophets taught us The Science of Morals but society does not care for the prophets so they go against Science in order to teach corruption they teach that the four devils are the right and moral way and though we know it not to be true we do very little to change it or prevent it from coming in to our communities. Remember cancer spreads until you stop it ignoring it will do nothing and Babylon wants to control you so it uses your lower self to drag you down, keep down,

Deep down every politician knows that if people individually achieve peace and socially achieve peace they will have no power, no job. This is why they constantly bombard you with negativity. How do I know this? The answer is easy just look towards scripture: If one is full of Love he cannot kill, he cannot falsely testify, he cannot covet; can do naught but honor Allah and man (M.S.B4: 6). Not so hard to figure out ounce you see it in black and white that everything society wants you to do you can't do ounce you accept and live in love. It completely makes evil and evil inclination oblivious. The scripture continues to say: If one is full of Love he does not need commands of any kind (M.S.B 4:7). Amazing, society needs control so they set up commands or rules to control you but we are being told that you will no longer need such commands that you will do what is instinctively right because all you can do is honor Allah and man and that you will gain Freedom due to the fact that you will be absorbed with Love that you can do no wrong. You will be on is Allah and Allah will be one in you man will be unified with his maker in everyway just as we are told that is what it means to be your Higher-self, Spirit-Self, to be Free.

We can all be this way; our society can be this way if we decide to make it so. If you want to know how to live in love Allah has giving us the example in Jesus. Jesus gave us an example of what someone is like when they become love. We can all become Love because not only did Jesus manifest love but so didn't Noble Drew Ali, so didn't Haile Selassie I, and though some may disagree so didn't Fard Muhammad. Allah knows that from time to time we need

such examples to help us find our way to the higher self. All one needs to do is open up their minds to Allah, kill the four devils, because Love is Savior of the world (Circle Seven 1: 21) and the reason why Love can save the world is because Love is Allah (M.S.B 4: 5)

So have no fear what this world may do to you we are not alone in the struggle in self nor the struggle in the world. Be an example of the Ancient Tomorrow. Do not be divided even over different points of view because Islam teaches us to love and tolerate ones brother (First Born Prince Allah) it is only by living in accord with the teaches that came down from Allah that we will transform this ungodly place into the Garden of Zion. Together we must work and achieve the higher planes of thought action (First Born Prince Allah).

I hope I was able to shed some light on your day.

Be Blessed,

Your brother in Islam

Abdul Batin Osman Bey

Be the way

Islam,

Family, I see many among us preaching the everlasting Gospel of Allah and I commend all those that have picked up the mantle. It grieves me when I meet some of my brothers and sisters because they have falling into religion and have left Science at the doorstep. They have relied on outer forms and Friday gatherings to be the entire journey. When they leave Sunday school they return to Monday in the same manner as everyone else, negative, gossipy, and are not living what they are hearing and what they are teachings.

Family, I see many among us preaching the everlasting Gospel of Allah and I commend all those that have picked up the mantle. It grieves me when I meet some of my brothers and sisters because they have falling into religion and have left Science at the doorstep. They have relied on outer forms and Friday gatherings to be the entire journey. When they leave Sunday school they return to Monday in the same manner as everyone else, negative, gossipy, and are not living what they are hearing and what they are teachings.

We are all called to be Light Revealers, up lifters of the human family. In this letter I will try to point out the verses that make our mission and the way to our mission perfectly clear.

To teach men to be pure in heart, you must be pure in heart yourself. (Koran 4:12) as we can see we must be what we teach, what we say we are. Everyday of our earthly lives we must be the example for others. This was not simply the charge giving to the Forerunner nor was it the Charge simply giving to Jesus. It's the responsibility of every member of the human family. The reason why is simple: Men need a pattern for their lives; they love to follow, not to lead. (Koran 4:14) The man who stands upon the corners of the paths and points the way, but does not go is just a pointer, and a block of wood can do the same (Koran 4:15) Are you a mere block of wood? We are called to be the example of all men just as Allah called the prophets so we too are called to serve the cause. The only problem is too many

people are still unaware of how to achieve this and so they mouth the words, get caught up in worldly affairs and never actually do what they are suppose to do. Remember: Now, you may never point the way and tell the multitudes to do what you have never done; but you must go before and show the way (Koran 4:23)

Before you can point you must firs become this is not an easy one day event were you will be magically transformed. It takes time, hard work, and is a process of life. Before you tell others to free themselves you must first free your self from your own devils of self. The only devil from which men must be redeemed is self, the lower self. If man would find his devil he must look within; his name is self. (Koran 3:21) The lower self is your carnal self the part of you the lusts, covets, and wants to do things which are not in accordance with the ways of Love, the Higher Self, Allah. To do this we must first study ourselves making sure that all our conduct is in right, (Koran 5:14) are we helping others? Are we doing things because we want to do the right thing or are we looking for self-glorification? Are we in control of our passions or are our passions in control of us? (Koran 5:15) If we control our passions then we will always walk on the proper path but if our passions control us then there is no telling what we may do. We may act lower than the animals by murdering, raping, or putting negative thoughts into the universe. Are we cutting away the gossip, the slander, and the negative aspects of self? (Koran 5:16) in order to make Truth manifest within us and shine for all people to see, observe learn, and long to become like (Koran 5: 17). Is our temper in check are we thinking before we speak, or act? (Koran 5:18) Are we striving always in the Faith that we can accomplish this task, in hope that others will embark on this journey making this world a better place, and are you doing it because you love your fellow man and your Father God Allah? (Koran 5:20) This is the only way you and I will achieve to build the Temple of Perfected Man (Koran 5:21)

The reason why we must love and operate within love is because everyone we see is in the image of Allah and represents Allah on earth. (Koran 8:10) And when man honors man, he honors Allah, and what man does for man he does for Allah. (Koran 8: 11) This is how we will heal the world bringing it back to the days of the Garden even

our Hebrew brothers understand this. But we must not do these things only for those within the Science but for all mankind. I recently read a conversation by the Moorish Hebrews bashing the Moorish Scientists for teaching others the ways of Allah. Surely, they are not embracing the entire aspect of what needs to be done to reach the highest points of heaven. Let us always remember: If you would serve the Allah who speaks within the heart, just serve your near of kin, and those that are no kin, the stranger at your gates, the foe who seeks to do you harm (Koran 8:13) Assist the poor, and help the weak; do harm to none, and covet not what is yours (Koran 8:14) Make human hearts your altars, and burn your sacrifices with the fire of love (Koran 8:22) As we have read we must show everyone the way that is our service, our charge. We must also help those that this world has turned its back on. Everyone we come in contact with should be precious to us; we should treat people as such. As we serve even those who hate us by serving them we serving ourselves aiding us to the Omega Point of self, At-One-Ment with Allah.

We must not become religious because the idea of religion is a starting point but we must not be consumed with that point. This is why divisions, hatred, and misunderstandings appear. Driving a wedge between the human families causing division, which is warned in the Qur'an: As for those who have divided up their religion and broken up into factions, have nothing to do with them. Their case rests with God: in time He will tell them about their deeds (Surah 6:159) We should never be dividers but whole makers keeping our minds and bodies in purity. If we are not going about our Fathers business then we are aiding the world in negativity: It is cruelty that makes the world awry, this where so many people are they are in cruelty causing suffering and pain. Those who wish not to be part of the suffering and wish to be part of the solution we continue: when men have learned that when they harm a living thing, they harm themselves, they surely will not kill, nor cause a thing that Allah has made to suffer pain (Koran 10:10)

Keep in mind that Salvation is a ladder reaching from the heart of man to the heart of Allah (Koran 7:27) whatever is in your heart Allah knows and knows why you do what you. Also, whatever is in your heart will always come out if you truly have a devilment then sooner

or later the devil will come out, if you are truly At-One-Ment then it will be a light unto the world.

May the road rise with you,

Your brother in Islam,

Abdul Batin Osman Bey

Islam,

We of the Moorish Orthodox Church who love our Prophet know his teachings well. We know the laws of society and of the Universe, but like all mystics we are not bound to any rules of Babylon law. We like the Ben Ishmaels before us are explorers not in cars but in the esoteric teachings of our Prophet. We not only study them but we embrace them and live them out. We have done away with dogmatic behavior in order to explore the Universe in accordance to Love, Truth, Peace, Freedom, Justice and Beauty.

We of the Moorish Orthodox Church understand that everyone one of us is a teacher so that though we may have different opinions we will not force our wills on another due to the fact that we have connected to our Higher Self which is in submission to the Will of our Father God Allah. You are, each one, a priest, just for yourself. We enjoy the company of those who think similar to us and completely different than us this is true Brother and Sisterhood.

Though many great things can come from living within the realms of spiritual drunkenness a warning must be giving that for some the path my be too much and may lead one down a path of darkness. Just because you have thrown off all your chains does not mean you are above the laws of Allah. Many of our family that has mistaken the very blessings of our way have succumbed to Satan because they forgot that they still had mental (Soul) enemies to fight. The one who whispers is ever near and the closer you get to your Father God the harder he will try to steer you in the wrong direction.

Keep the beloved Prophet on your mind, the pillars in your heart and remember always: He is the God-man of to-day: but everyone of earth shall overcome and be like Him, a Son of Allah. (Circle Seven 20:37)

Your brother in Islam
Abdul Batin Bey

Eternal Imam Eternal Christ

I am the First and Last- Ali

Islam,

Brothers and sisters it seems that the topic of the Eternal Imam has rising among you and you wish to know how we can achieve this state. The above quote is from Ali the Cousin and Son in Law of Muhammad. In the course of history many people have said similar things some even saying that they are an aspect of God. Though this may be hard for some to understand I will do my best to dissect the missing points.

When we hear the phrase Eternal Imam what springs to mind? Maybe a human that never dies? Something otherworldly?

When we research the phrase Eternal Imam we come across this definition: The Eternal Imam is the origination and first Manifestation of Allah- Known as the divine word. Now let us stop for one minute and ponder this over. The key word we should be looking at is WORD. Why? Because we know that Christ is the Word. So this tells me that the Eternal Imam is just another word for Christ. We know that Christ is not a man The Christ is Love and Love is King (Nazarenes Testimony) we also know that love is the savior if we place it in our thrones, our hearts. This should bring a great joy because we know that each one of us can become a Christ, The Eternal Imam.

If we study our documents and scriptures we already know this to be true but let me do a little more on this study.

Some might be saying isn't Jesus the only Christ? The answer is no, none of the scriptures support this. According to the Nazarenes Testimony: Jesus is but a man who has been fitted by temptations overcome, by trials multiform, to be the Temple through which Christ can manifest to man. We must remember that Jesus giving the title

The Christ, The Anointed because he overcame all earthly, and mental obstacles. This is why Jesus tells us that what he became all men shall be. None of this is out of our reach be if we truly reach out and grasp it. Remember, "Man is but a seed that holds all the properties of Allah". Jesus was a man who became The Christ.

In order to achieve this or to become a manifestation of love you must first purify yourself as we have said in previous studies. In order to be pure you must constantly be studying yourself and improving yourself every second of every day. If you are not willing to do these simple things then you will never "Learn to love instead of Hate". If you can't love then how are you going to become love? Too many Moorish brothers and Sisters talk about love but all they do is spread hate. Don't make your Temple a den of thieves, cast out those four devils and repent (Change).

Now you might be asking yourself what's with the quote? How can Ali or Mary Magdalene or Jesus say they are the first and last? I chose that quote because it is easy to read I could have quoted: the Father and I are one, which Jesus and others have said. We must now look and ask are they proclaiming self-divinity? Unfortunately some have mistakenly thought so and formed beliefs over errors. Instead of trying to go deeper than the skin of what was being said.

When one submits to Allah and becomes a Temple of love they are no longer speaking of themselves but of absolute reality. They become a conduit for the Universal Intellect to speak through thus to those unlearned it looks like a man is talking as if he is Allah the all powerful when in reality he is being used by the Love of Allah to teach us things which were not previously revealed. This is Gnosis, the full living of Allah and man being one.

Now some will say that one cannot become the Imam because you have to be born into it or chosen from a certain line. This we know it is not true because we are each a priest and priestess unto ourselves, we are our own Imam thus we are more than capable of merging with the Eternal Imam which is Christ which is Love. We have the blue prints on how to achieve this in our very hands yet for some reason many in our community do not believe it.

Whenever someone tells you that you must go outside yourself to become something positive tell him or her to get behind you Satan because only a devil would try to con you out of your birthright. What your ancient forefathers were you are today without contradiction. Only you can decide to save yourself, and only you can get yourself to where you want to be, Allah gives no shortcuts no simple solutions. Pick up your carpenter tools and get to work (Circle 7 Koran 5:14-21)

I hope I have been of some help in some way

Your brother in Islam

Food for thought

Islam,

Our beloved Noble Drew Ali was born with an ordained mission that was and is to uplift falling humanity from their sinful ways. He brought to the lowly their lost history and their lost culture. He gave them back their identity and the tools to gain both earthly and divine salvation.

By speaking the Gospel of Allah he akin to the other prophets before him attracted a wide range of people. Some of the people he reached he himself may not have intended. Allah surely knows best because some of these people were Europeans. Some of these Europeans followed the devil mind and became angry while others were and are drawn to the gate of Truth. Accepting all teachings that they hear and read about.

When we read our Questionnaire we find the explanation of what a prophet is. It states that a prophet is a Thought of Allah manifested in the flesh. We also learn what the duty of a prophet is and that duty is to save Nations from the wrath of Allah. Let us pause, it says to save Nations. It doesn't say to save only the Asiatic Nations it says to save Nations which include the world of Nations some of them being of European stock.

Indeed the message of the prophet may be for a specific group this does not mean people near that group will not be unable to receive the teachings and blessings. We see this in the life of Jesus though he was born for Israel specifically we read over and over how many gentiles accepting and were guided and received the blessings and promises of Israel on themselves. Even his ancestor Ruth a Moabitess who accepting her mother in laws way of life and the Israelite culture was welcomed and blessed by Allah.

Noble Drew Ali was in the business of uplifting falling humanity. We are told that our human family has two branches the Asiatic and

the European. So even though Our Beloved aimed for the Lost Asiatic's he attracted Europeans as well.

The question should now be asked, why would a European embrace Noble Drew Ali or Islam? The answer is that Islam is the original culture of Adam, the original Culture of Noah, the original culture of humanity. Also, it is the only way the European will learn his proper place and proper role within his human family and the universe itself. This is the only way the European will find At-One-Ment with Allah.

By studying the teachings of Noble Drew Ali even the European will be transformed into a truly righteous being. I believe this is why Noble Drew Ali said: “That I will have the Europeans uphold my laws”. These Europeans are not going to be unbelievers but zealot believers and they will gladly uphold the laws of Islam.

I don’t expect anyone to agree with I’m putting down. Though the fact still remains that many Europeans are drawn to that Old Time Religion, studying it, living it, and receiving the gifts that come with it. We cannot ignore it nor can we turn them all away in these days of endless information. Timothy Dingle El and Rashad Bey taught all those who were truly seeking the divine ways.

Through Love, Truth, Peace, Freedom and Justice all men are one and equal. These pillars are to be taught universally to all Nations.

The kingdom of God will reign and who better to teach them and guide them than the awakened adherents of Noble Drew Ali.

With Allah’s will and guidance those who are called will answer and become transformed.

Your brother in Islam

Abdul Batin Osman Bey

Islam,

As Moslems we are called to Uplift Humanity from their falling state but in order to achieve this we must stop condemning others for what they believe, and or how they see the world. Instead we must show them the path of righteousness by using what they already know. Instead of pointing and calling them foolish find the common ground and build from that foundation so that they will accept what you say while feeling secure in themselves. This was how it was meant to be but too many brothers and sisters back slid into a negative vibration not utilizing the teachings they were giving by the prophets.

Of course now because of this approach or lack of we have barely uplifted ourselves let alone anyone else. So we must work from the ground up starting with our own community by ending the petty divisions that we have and embracing the unity of our Ancient Forefathers. It is a shame when I see Brothers and Sisters harming one another over things, which only Allah can judge. All too often we give into our carnal nature allowing unrest to come between us. So let us now and forever pledge before our Father-God Allah to never allow divisions or petty prejudices and misunderstandings ruin that which was freely giving to us. We akin to Old Time Israel are an example of righteousness among the nations of the earth. Lead by example that is the only way we as a people will unite fragmented Asia.

I know I wrote of Uplifting humanity before and I know I most likely will again but the balance of the universe depends on every decision we make in the here and now. We can either project a violent future or project a peaceful future like the Prophets, Peaceniks, and Anarchists before us were doing. As our beloved Noble Drew Ali stated " Stop looking for Heaven outside your window, look for it within yourself". We can usher an ever-lasting Heaven right now if we only dared to live the dream.

Your Brother in Islam,

Abdul Batin Bey

My thoughts on the afterlife

Islam,

As of late many people have been asking me questions about our Islamic Science and where we stand on certain issues. I tell them that we have no one dogmatic way of looking at the current social ills of the world, nor do we have a rock clad theology that each one of us sees and expresses themselves as they see fit. Of course this confuses people forcing them to become puzzles or to ignore what I have said and continue to ask questions as if I never said it.

One of the main issues I am asked is the concept of life after death, which is something; I have shied away from except for moments of inspiration. Being spiritually raised by a Moorish father and a Rastafari mother the issue of life after death seemed less important to both of them. They both stressed the importance of this life, of this time the total be here now attitude. So in many cases I did not dwell on it concluding that we are of essence and when we die we will either reincarnate or just become energy. But I have decided to look into our science and see what I could find to tell people if they wanted to know. Of course all research and conclusions are my opinion and I speak for no one but I.

Man cannot die; the spirit man is one with Allah, and while Allah lives man cannot die (Chapter 1 (7) Koran). Man is a thought of Allah; all thoughts are infinite, they are not measured up by time, for things measured up by time, begin and end. (Chapter 1 (7) Koran)

In these two versus we read about the everliving nature of mankind. We must always remember that life is continual and that are physical material self we see in the mirror is not who we are but it is a reflection of our true spirit self. Even our mental self is not who we truly are that too is a reflection and will also pass away. The spirit will never pass away because as Allah is eternal so we too are eternal.

We also know by studying that though we are eternal at some point we will be absorbed back into Allah. The time will come when all these seven manifests will be absorbed and man and beast and plant and earth and protoplast will be redeemed. (10:39 (7) Koran)

We belong to Allah and to Him we should return (2:156 Quran)

Then shall the dust return to the earth as it was: and the spirit shall return unto God who gave it. (Ecclesiastes 11:7)

As we read these passages it does not negate that we are immortal beings but it does point us to our general direction of where we should be heading. Our final destination is not a new earth, a far off kingdom, or a distant garden no; it is union with Allah itself for all eternity. Our essence will return to its rightful place. Through the process of living, growing, learning, purification, and reincarnation we are giving ample time to correct ourselves and get ever closer to our Father-God. This is the truest form of salvation. Salvation on one hand is individual but on the side of Allah it is collective, when we read the Torah it states that Salvation will come to nations, then the earth, then unity with Allah. If you only think of yourself and your own salvation then you are actually pulling away from the direction of Allah. This is one of the reasons so many so-called religious people get fanatical or withdraw from the pleasures and gifts of life. They are missing the point of what salvation is. As each of us grows we are to share our knowledge and help others to grow as well. We are each a light that needs to shine so that those in darkness may have a chance to see and themselves become light.

We also see that when man has collectively been redeemed all other aspects including other dimensions shall too be redeemed. Why? Because every aspect of the Universe both seen and unseen are interconnected so when one pulls towards redemption the others will follow. This is why we must be about our Fathers business here on earth.

Now some may be asking what about Heaven? All our lives we have been hearing about Heaven or Paradise. According to the Holy Piby: The fool slights the things in life and seeketh a heaven after death (Chapter 14) It also states that: He who establishes a Heaven on earth shall dwell in heaven ever lasting (Chapter 14). As we have seen we are reminded of our mission to make earth our heaven so that future generations and we may enjoy heaven forever until the time we are absorbed back to the root. How else are you going to uplift humanity if you are not willing to make earth your heaven? What

good are you doing simply praying in your room or place of worship while watching the world fall apart around you? Learn from the prophets who are our examples they were doers not waiters. We also read in the (7) Koran: Allah never made a heaven for man: He never made a hell; we are creators and we make our own. (12:9) How much clearer can it be that both heaven and hell are states of mind states of being. What you think you are, what you think you create. This is why we focus on the positive side of life not the negative. Our version of what some may call Karma is very simple Negative pushed out means negative brought back positive pushed out means positive brought back. Whatever you think whatever you do will return on yourself.

Heaven is peace and happiness those who have these and are free from the material carnal nature and spread these to others are creating a heaven. Man must see himself as an aspect of God the Most High and make his will Allah's will. When man can see God in everything around him and within himself and obey that still small voice within the Kingdom of God will be made the Garden of Eden will bloom and he will enjoy the bliss of heaven until we are absorbed back into our Source. Only then will men live by the Pillars of Islam as they ounce did, the pillars are Love, Truth, Peace, Justice and Beauty.

We must know that some will never find this connection because some no matter how many lives will only be into self-glorification. I believe this is why in Matthew we are giving the warning to fear the one who can destroy both body and spirit. These fools will be blotted out of existence never to enjoy life nor affect the waves of existence again.

Now some may be asking about the Day of Judgment. That day is not a far off day but it is every day it is the law of karma you are judged every step of your journey.

Some may be asking about the Resurrection of the Dead, the Dead are those who are not into the Science who still roam aimlessly in the darkness of ignorance. The Resurrection is when man in his natural spirit state. When the will of man is one with Allah.

And man again will be at one with Allah (2:28 (7) Koran)

I hope I have eased some minds and helped you in your journey

Your brother in Islam

Abdul Batin Osman Bey

Pale Skins wake up!

Islam

These past couple of weeks has been more than eye opening not just for me but also for the United States. Two lost children set off a couple of bombs in Boston Massachusetts. As soon as the dust settled and the news that it was two Muslims that did this did the war cry of "White Power" come screaming out. Everywhere I went I heard how all Muslims are barbaric animals trying to claw down the Christian Nation of America. How every person should enlist and learn the true meaning of Americanism. Some fools even went so far as to misquote the Qur'an in order to desperately try to prove their point. We must defend our white boarders from these Olive Tone animals.

As the days went on I had to laugh because who do these unenlightened Europeans think they are fooling? They cry for sympathy and vengeance while they and those who think with the European mindset go bombing, looting, killing, and raping all over the world. Babylon has created the very monsters that it now tries to hide from. This is nothing new for the European this has been going on aggressively since April 21, 753 B.C. The first great European King Romulus plunged the world into darkness by unleashing the true barbarians on the planet earth. He like his ancestors and many of their offspring down to the present day followed in Princess Europe's footsteps of ultra perversions. Unspeakable acts of genocide they have committed through out there reign and now they want to be the good guys? The United States history only confirms their lust for self-righteous bloodshed.

Not only did they distort the balance of earth but also they even tried to erase their true Ancient Forefathers with imposture ones such as Romulus, Julius Caesar, and Augustine Forcing many others to do the same. They went to the houses of Knowledge and stole all they could proclaim themselves as the founders of Civilization. The word civilized should be taking out because nothing of there society is based on any truth. It is based on lies and that which is based on lies will never last. All one needs to do is open a history book and read

between the lines the truth is staring them right in the face and they choose not to see it. Modern science even agrees that the European is not the origin of anything yet they persist.

If the European is going to continue to exist they must change their ungodly ways. They must repent for all the crimes they have done, and change how they perceive the world from that of a Eurocentric way to that of an Asiatic way. The keys of civilization must be giving back to our Asiatic parents the Original Black Man and Black Woman of the planet earth. Everything they have learned must be unlearned all the lies must be washed away and replaced with truth. In essence they must be born again.

Turn from your evil ways or Allah will turn on you (Circle 7 14:28) Can't you see that Allah is giving you one more chance to collectively be saved from your sinful ways, to join the human family ounce again. Will you defeat your inner devils like some of your children have done, the ones you call race traitors. Will you learn to love instead of hate? Accept your place in the human family? Or will you continue down this path of white pride? Will you continue to embrace sin and all the evil that it brings. Are you prepared to sing the song of Sarah? If you are then get right with the Lord Allah right now, embrace that Old Time Religion of Islam. Follow the example of the prophets and receive your inheritance. If not then continue in the hell that you have created for yourself.

The sword of Justice is ready to strike which side of the blade will you be on?

I say these things not out of anger or of hate but out of Love.

Your brother,

Abdul Batin Osman Bey

P.S.
The king of Rock N' Roll is Chuck Berry not Elvis.

Reincarnation

Islam,

One of the major differences between our Islam and what others may call orthodox Islam is that we bring back the ancient knowledge of reincarnation. For too long the religions of the day have ignored this fact trying to regulate it to a theory. Yet, when we read the teachings of the ancient teachings of Djehuty (Thoth) we find that is a fact. "Rebirth is not a theory, it is a natural occurrence that happens when God wills it, and all we need to do is master our passions and accept whatever fate may bring us. Here we learn two very important facts one that reincarnation is a natural process which we must go through and that Allah is the one who decides if we should reincarnate or not. This may confuse those who are not initiated into the ways of Islamic Science but remember that Allah does all things for our benefit.

The rest of the monotheistic faiths have turned there backs on the idea of reincarnation because it doesn't not fit there dogma which is that we live only ounce and then we die and are judged either immediately or at some appointed time in the future. Though the Great Spirit judges us it is not a judgment of a far off time but a judgment of right now. We are called by our Father-God to reach ever higher than we are now to become more than we are. We must accept that one life time may not be enough and that we like Jesus the Christ, Buddha, and Krishna will go through many lives being perfected time after time, eon after eon.

Before we go further we must first understand what we are, in reality we are of the spirit of our Father-God because it is He who thought us into exist. The body and all that comes with the material realm is not the truth nor is it the reality. God is the Absolute Truth therefore the only reality. If you open up your Koran and Aquarian Gospels you will see that what I am saying is fact.

Now we must not think that the scriptures nor Western History does not have any trace of reincarnation. Remember that reincarnation is one of the original facts of Islam, which is that Old Time Religion.

One of the great minds of the ancient world who like his teacher Socrates kept the Asiatic teachings alive was Plato who said:" The soul is older than the body, souls are continuously born over again into this life". Even Socrates who not only kept a monotheistic view of the universe but also while we died recounted his past lives and his visits to the realm of paradise.

When we read the Torah we find Jeremiah being told by the Great One: "Before I formed you in the womb I knew you, before you were born I set you apart"(Jeremiah 1:4-5) This passage is two fold not only is he being told that he was known but we are also being told that he was set apart. Now Jeremiah was one of the prophets of history so we know by reading our Koran that an in order to be called you must go and be willing to go through a continually process of purification. Allah knew not only in thought but also by watching Jeremiah progress life after lifer that he was ready to be called at the time he was. If you read about all the prophets Allah awakens them all at some point in their lives with the notion that it was preordained before they were born. They were chosen because they made the greatest strides in the way of our Father-God so that they would have the ability to lay aside all carnal desires and link to the Will of Allah.

Many Christians will most likely scoff at the idea that their religion taught any form of what they would deem pagan practices. Well, when we open the Gospel we find a few passages that may speak differently. According to Matthew Jesus said: "And if you are willing to receive it, he (John the Baptist) is Elijah who has come. (Matthew 11:14) and again in Matthew 17:12 we read: But I say to you that Elijah has come already, and they did not know him but did to him whatever they wished. Here we find that Jesus is using John the Baptist as the returned Elijah saying that they are one and the same. Now the Israelites new that Elijah had to return before the Messiah and before Jesus began his ministry some were already saying the John was in fact Elijah. Jesus was using what most Israelites (except for the Sadducees) believed in reincarnation. Many

tip toe around this passage saying that John like Elisha had a portion or double portion of Elijah's spirit, essence. If this were the case then Jesus would not have said that John was Elijah because having a portion of an essence is not the same as being the same person. Elisha got a portion of Elijah's essence that did not make Elish the new Elijah but John was the new Elijah because he in fact was the Original Elijah.

I hope I have made this plain for you to understand.

The early Christian teacher Plutarch who was later condemned as a heretic taught that the soul is indestructible and will align back in the body, birth after birth.

When we turn to the Quran we find may passages about the prophets being one and the same which I will go into at another time but we also find this Surah: How can you reject the faith of Allah? Do you not recall that you were ounce without life, and Allah gave you life; then Allah will caused you to die. And will again bring you back to life; and finally to Allah you will return. (Surah 2:28)

We find in the above passage the same teaching as Djehuty that it is God who wills us to reincarnate over and over until He calls us back to himself.

We as Moorish Scientists know that reincarnation is real based on the knowledge that has been handed down. Based on the Teachings of Noble Drew Ali being leader of an Ancient Cult in Egypt and remembering his past lives with vivid precision. We also embrace that Quantum physics is undoing the false teachings of many Western religions and governments who want to keep reincarnation under lock and key because they would have no power if people knew and accepted the truth. Because ounce you accept the true reality of self, the world and God Almighty you will look at everything differently and you will live in according to the Will of Allah, which is in conflict with the morals of Babylon.

We as Moorish Scientists know the purpose of reincarnation.

1) To shed all negativity of the carnal, material world

2) To work our way back our father-God Allah
3) To eventually become a Christ or a Buddha
4) This proves Allah's ultimate love for us because he leaves no soul behind.

I hope this has giving you something to meditate over and something that has giving you strength to continue the battle against Old Baby-Wrong.

May Allah guide you and bless you always

Your brother in Islam

Abdul Batin Osman Bey

Islam,

Therefore we returning the Church and Christianity back to the European Nations, as it was prepared by their forefathers for their earthly salvation.

While we, the Moorish Americans are returning to Islam, which was founded by our forefathers for our earthly and divine salvation. - Circle Seven

As I read these words I had to pause for a moment and reread them over and over again. What do these words mean for us Moorish Americans, for us Celts and Persians what is saying on a deeper level. As I pondered I had to remind myself that we are not the children of Europe ounce we enter the Moroccan mind, we have been transformed into a new being. We understand and accept the fact that we are the children of the Original Asiatic Man, which makes us Asiatic as well. Our way of life is the same way of life that they flourished in which is Islam. This is why Noble Drew Ali he is returning Christianity back to the European, the ones who have not Science out the truth and wish to stay ignorant of the facts. Those who deny the natural way of life and deny the true origins of the Human family will only have an earthly salvation. They cannot attain a higher salvation because they remain ignorant of truth and ignorant of the higher self.

If we are to Science our history we will always find the truth no matter what the devil can never fully erase the facts. Christianity did not start with Jesus though they claim it did. Jesus never taught Christianity he taught what all prophets of Allah taught which is Islam in there own times in there own languages. The movements that Jesus taught was called THE WAY because Jesus was teaching people THE WAY back to Allah. It was Paul who did not know or love the Messiah who first started to corrupt the teachings of Jesus. The reason Paul did this is simple: Whoever lives by the teachings of the prophets will not taste death. They will live just as Enoch and all the other

prophets; though the body may be disposed the true self that is one with Allah will live on forever. Paul was no friend to the Apostles who wanted to keep The Way movement on its proper course.

The biggest blow came from that beast Constantine who forced everyone subject or within his grasp to bow down to a false version of Jesus and killing many of those followers who would not submit to him. Constantine like Paul mixed in Pagan ideas with the teachings of Jesus knowing that man is weak and would be easily lead astray. Darkness is all they knew and though they craved light they were giving darkness repackaged as light and in there foolishness did not Science out the truth. Those who did paid a heavy price. It is this version of Christianity that Noble Drew Ali is giving back to those who want it. If Christianity followed the ways of Pelagius, Arius, Unitarians, and many other keepers of the light we would be living in a different world.

If people kept the Islam of Jesus Muhammad never would have been called and if people kept the ways of Muhammad Noble Drew Ali never would have been called. Since the masses were kept in utter darkness Allah sent forth messengers and prophets in all times and ages to uplift falling humanity.

This is what makes the M.O.C. so vital to the world because they are taking Islam to the pale skin nations of the earth. The M.O.C. is shining light into the darkness calling those who truly want divine salvation, those lost children in the wilderness back to the Nations of Truth. Though the Babylon system may try to stop this movement by calling them race traders the movement marches on because they know they are race saviors uniting the family back to one community.

Peace

Abdul Batin Bey

The foretelling of Noble Drew Ali

Islam,

Over 2,000 years ago Elihu foretold our beloved Noble Drew Ali when he said: This age will comprehend but little of the works of purity and love; but not a word is lost, for in the book of Allah's remembrance a registry is made of every thought and word and deed,

And when the world is ready to receive, lo, Allah will send a messenger to open the book and copy from its sacred pages all the messages of purity and love.

Then every man of earth will read the words of life in language of his native land, and men will see the light, and walk in the light and be the light.

And men again will be at one with Allah
Circle Seven Koran 1:25-28

When I read these words I knew without any doubt that these words were about our dear Noble Drew Ali, yet, at the same time it is also about us. Since Allah called forth Noble Drew Ali this means he is calling us to not only see the light but to walk in the light and be the light. We are being called to be revealers of the light truly Allah knows best. So why are so many of us still acting as if the light has not been shone? As if the message is not plain for us to see? We are still acting like we cannot comprehend the words of almighty Allah yet we are reading them so that we truly do understand them.

Community do not be a stubborn nation, do not resist your Lord he has chosen us to be a great generation and a great generation we will be as long as we spend time with the Scriptures, learn Science from our prophets, and learn about ourselves and our divine inheritance.

Let not the devil keep you in ignorance.

Be blessed

Your brother in Islam,

Abdul Batin Osman Bey

Message to the so called White Man of North America

In the name of Allah, the merciful, the peaceful

Glory be to you, Lord

Islam,

It has been asked by many can a so-called white person benefit from the teachings of Noble Drew Ali? The answer many may want to give would be no but I disagree with such nonsense because a prophet is an Angel sent to all the Nations at the four corners of the earth. You might be scratching your head thinking would Noble Drew Ali want these so-called white people learning what he taught? Again, the answer is without a doubt Yes because what he taught is Universal like all the other Scientists before him. Why would the so-called white man want to learn what Noble Drew Ali taught? To learn how to love instead of hate and to learn how to Be Themselves because they like the so-called Black Man have not been who they were suppose to be for millions of years.

Many of my Asiatic brothers and sisters are quick to condemn the horrific things that the so-called white man has done in the past by passing judgment and calling them the devil which is what the majority of the so-called white men have become and have demonstrated. Only a handful, an elect few have done what is righteous, very few have answered the call to submit to Allah. By doing this what have you accomplished? You cannot ignore a problem and hope it goes away. Nor do many of my brothers and sisters want to face the Truth that they may be in part responsible for the so-called white man because the so-called white man came from them. Thus as my friend Bongo Black ounce told me “White people are the children of the Black man, it is up to us to teach them how to be righteous”. Yet how many have done this? Very few, even though your lessons tell you to do so.

It is a Scientific fact that all the Nations of the Earth came from Adam and Eve, who were made of the darkest soil, and then again through Noah who hailed from Mesopotamia. Both times the Asiatic man created the human race. Not one-person earth does not have so-called Black ancestry.

In order to over stand how the so-called white man became the way he did we must first look at the very first man Adam. It was Adam and his wife who chose at one point to stop following the ways of Allah and started to follow the ways of a Falling Angel. They took the forbidden fruit, which was lustful sex and from that came the seeds of the four devils. Lust, Greed, Hatred and Envy overtook them so they had to be casted out of the garden. Even though they repented to Allah they could not stay in the garden because they had changed themselves from Higher Beings into lower Beings, they went from a Seven Vibration to a six vibrations that is why six is the number of man. The Garden was a seventh vibration so they had to be casted out and relearn everything that they had previously known. Even the DNA of our first parents was changed and the knowledge of the four devils was imprinted on the human family. The same thing happened in the time of Noah, as people spread out further from Mecca the center of the earth they gained false knowledge and accepted it to the point that Allah had to end the world. Only Noah knew the righteous way, only he lived by the science so he was spared. Yet, no sooner did Noah start the human family than that old devil lust came right back because even though Noah was righteous the seed of unholy ways was still present in him and his family. This is why it says the children of Adam and Eve are Lucifer, Satan, Devil, Dragon, and Beast. Why? The majority of there children follow one of those paths.

Ounce humans left the seventh vibration they had a chose to make follow the higher self or the lower self. If a person chooses to attain the seventh vibration then they must learn the ways of the higher self while those people who choose to follow the ways of the lower self will gain nothing. This is why Noble Drew Ali said that the majority of so-called white people have only an earthly salvation because they choose to follow the lower self. Why do they choose this? They have been taught that the lower self is the higher self and the higher self is the lower self. They have been taught to see and live

in reverse. Only a few of them have been corrected, all one needs to do is open the scriptures and you will clearly see an elect few pale skin people following each and every Scientist. Sometimes the pale skin shows more promise then the original people that the Scientist is teaching such is the case with Jesus when he told his people if they only had as much faith as the Roman soldier would they know Salvation. It is said that when Moses left Egypt some of the ruling class followed after him and joined his people. The truth cannot be changed because the truth is Allah, but it doesn't mean all will accept it.

What does the so-called white man call himself? He calls himself European. Have any of you wondered why he calls himself a European and who or what is a Europe? Let us search the scriptures and you will find that Europe is named after an Asiatic princess. What did I say? I said an Asiatic princess a daughter of a Phoenician King, members of Canaan. So the very name Europe is named after an original Asiatic woman. Now we must ask ourselves why? What is her story? Her story is as such: That a Falling Angel, a false prophet during her time, captivated her. It is said that this false prophet called himself God. We know that is what the devil calls himself. It is writing that she rode him to the Island Crete on his back when he appeared to her as a White Bull. The White Bull is telling because he appeared as something beautiful that is how the devil gets you by appearing as harmless. The animal that he appeared as is a hint to who this false prophet was. In these days the Bull represented Moloch who misguided people into killing there very own children. How did he do that? By corroding the moral nature of the society that he taught but when the majority turned from his ways he took this beautiful princess and bred with her. By taking her away from her people he captured her mind, body, and soul. Her spirit she gave up willingly. Those who follow the lower self pass away because they give up their spiritual nature. (Some people may call Moloch Yokub). It should be of interest that Moloch being a falling angel did not perish but still roams the earth until this very day.

Now Europe had three sons Minos, Rhadamanthys, and Sarpedon who were said to be the rulers of the underworld. They cut off the people in this part of Amexem from the rest of Asia naming after there Mother and teaching divisive Morales plummeting them into a

dark age. Twisting the very minds by taking the Higher Self and knowledge of the Higher Self away from those they ruled. The underworld was the newly named Europe and the dead were and are those who dwelt within her boundaries' and now those of her ilk. The few that tried to retain some of the knowledge were hunted and either pushed out back into Asia or to the far reaches of Europe such as Ireland. This is why in the Celtic scriptures you have many Moorish men saving the day.

It has been bred into the European to hate, slander, commit murder, steal, and be lewd. It is natural for them because it is all they know. History proves this. I have shown this is how they went from being of the original people to being twisted into unoriginal people. This is why the 5% refers to these so-called white people Moslem Sons and Daughters. If a so-called white person comes to you wanting to learn the ways of Science you must teach them. This is the only way you can rid the devil off of the earth, not through murder but through education. Raise them up to seventh vibration just as you would raise your own because they are your children who have been misguided and mislead. This is why I have a great respect for Father Allah and Timothy Dingle El because they saw the opportunity to reach beyond the original man and bring in the lost children of Asia. Give them a new name and call them Celts or Persians because if they use those titles them they are telling you they want to move beyond the corrupt ways they were taught and move into righteousness.

Even Elijah Muhammad said: Those white people who embrace Islam will have a place in the world to come. Even Noble Drew Ali helped and healed many so-called white people and after he died one came looking for him but was too late. Read your history and you will always find a few, very few, who crave the truth and chase after Allah. Don't deny embrace.

Praise is to Allah, Lord of all worlds.

Abdul Batin Bey

(Though addressed specifically to the so-called White Man of North America it is for the so-called white man worldwide)

Tragedy in Connecticut

In the name of Allah

Glory be to you, Lord

Peace,

Brothers and Sisters I am deeply grieved on this Holy Friday because we have seen the ravenous taking of 28 souls on this day. Children, teachers, and an older gentleman woke up like we all did only to meet an end at the hands of a person who was lost within the Lower Self. Again, violence has caught us off guard and we are to ask ourselves why, why would such a person do this. I cannot tell you the motives of this deranged person but I would outline some overall factors that the United States of Babylon seems to be over looking. Instead of looking at the why we should look at the How.

You will always have one bad apple but we are having bushels of bad apples because we live in a society that shuns morality. Regardless whether you have a faith in God or not you should make sure from the second they are born that they know what is right and what is wrong. Instead of this anything goes mentality we are feeding the young today. Punish them so that they know that in the real world that consequences exist for what you do and make sure they know what those consequences are. Instead of this never punish it will be all right because you are special.

I remember being young and my family along with the teachers and even the television programming all had a moral lesson. When you take morality away from people or teach them a false reality then you are setting them in motion to become monsters. It's not an excuse but a fact. We need to bring back right and wrong, crime and punishment into our way of life. Make prisons unfriendly places, make sure that your child knows the difference between reality and fantasy because the mind by itself cannot and if you allow people to follow whatever the mind dictates you will have millions of people that will indulge in whatever they fancy. Then they lose interest and

move on to something more pervasive until they harm themselves, family, or as we have seen other people. Don't be afraid to be an adult; don't be afraid to be a real community instead of a fake community let them know where they stand now and where they will stand when they get older. How many more warning signs do you need before you take action? Or will you simply bury your head in the sand and sigh in relief that it wasn't anyone you knew or cared about. Until one day it is someone you care about then you will want something done but let me ask you this if you do not help others why would anyone help you? What we need to do is go after the symptom not the sickness.

A society will never be perfect but we can get it as close as we want it to be. I don't believe as others do that throwing our hands up in the air saying one day it'll magically get better so I'll just sit on my buttocks and wait. No, I believe in action and we must take action not tomorrow but today and NOW.

The easiest way to teach is to be the example of what you teach. Too many people want to teach but do not embody or be what they teach. That is another flaw that must be overcome with self-discipline, which is another ugly word in our current society, but it must be done. If you teach but are a hypocrite then you have undone what you have taught. Thus teaching them to be deceivers pushing them deeper into the lower self.

So enjoy your Friday and all your other days, spread the Light of Love, Truth, Peace, Freedom and Justice on everyone you meet making this world one step closer to perfection.

Praise be to God, Lord of the worlds

Abdul Batin Bey

Uplift falling humanity

In the name of Allah, the merciful, the peaceful

Glory be to you, Lord

Peace,

As I listened to the news on the radio hearing about the events that have been unfolding within the middle east and Africa I couldn't help but feel saddened. Hear we are continuing to go around the same broken wheel. When are we going to learn that wars solve nothing? Wars can only create more hatred and more wars. Why do you think politicians love war? They love it because they are enemies of Peace, enemies of humanity and enemies of God. This is why we must stop looking for a political solution, a political savior; it's never going to happen. We must join together as one community embracing each other regardless of differences in beliefs, color, and whatever else people use to divide. God has made us all in his image, and only he can judge us because it is from Him we come and to Him we return.

We of the Monotheistic faiths have a common thread that binds us together. That silver cord has a name and that name is the prophet Abraham. It is from his vision of God that all three were birthed and sprung up. He shaped our very course with a simple call of One Aim, One Love, One God, One Destiny, which has been repeated down the line from his time until now. What would Abraham say if he was to walk among us right now? Would he approve of his children by blood and by adoption fighting among themselves like rats? Do you think he would enjoy hearing his family slander one another? No, he would be mortified that the Unity he envisioned has caused so much pain and sorrow. We are to have no division among us. We are to settle our differences with kindness. We are to "Love our neighbors" because our neighbors are our family, our us, and our images of the one who created us. Who dares to kill the All Mighty? Only the fools among the foolish, yet it's going on right now everywhere you turn. People are convinced that this is the way it must be brainwashed by the White Horse they joyfully bath with the Red Horse then they wonder

why the Black Horse is all they ever get. Wake up! It's time to go back to the original call of Abraham and all the other prophets and friends of God. Unity in Oness. One People, One God, One Destiny, that should be our mantra instead of this us against them, the it's all about ME mentality that the devil whispers into our ears and we think of ourselves as righteous. Stop living on the lower end of life move yourself into the higher end, the higher self, heal the world instead of shrugging and wallowing in its wounds.

Many of us talk a good game about helping others but when you get down to it most of us do nothing about it. We are quick to condemn the world and point out all its flaws but we are slow in changing ourselves. Or we change ourselves and think that's all you need to do and you do nothing to alleviate the wretchedness around you. Brothers and Sisters it time we stop waiting for someone else to come and save the day because that's not going to happen. We must each put on the cloak of the teachings of our Lord and live out true submission, which is Peace. Lets stop saying when the prophet Jesus or the Mahdi or whomever comes then things will be good. If you're doing that then you are missing the point. Jesus said: "What I have done you can do greater" this is him telling us to pick up where he left off, that was his way of saying pick up the mantle march to the way of Love, Truth, Peace, Equality and Justice. Take a stand and move forward. This is what the prophet Muhammad did, this is what Marcus Garvey did, Druze Ali did, and many others did. So why are we not doing this? Why are we not pushing the world towards the Garden, Towards Zion, Towards Nirvana, towards a better day for our children and future generations? The answer is simple we digressed, we allowed politics into our lives, into our minds and instead of being Holy which means to separate we became of the world. We have allowed pollution into our food, into our lungs, into every aspect of our very existence. Snap out of it! We have too little time to waste. Become the solution not the problem.

In the beginning: All people were of one Community it was only later that division came. Let us remember this and try to get back to this so that this current cycle of Death may end and be replaced by Life.

Praise be to God, Lord of the Worlds.

Abdul Batin Bey

Back to the Original

Islam,

It has been said by many in the Ummah that Islam must change for the United States, for Europe, and many other so-called civilized societies. I have read books by scholars and heard the advice of political persons on the news of how this can be done. I do not agree with what these people propose. I propose the exact opposite that they must change back to Islam. Why change back? Islam was the religion of Noah and all the children of Noah are meant to follow that Old Time Religion.

Some may be shaking their heads saying to themselves that Islam is nothing more than a terrorist organization, anti-American, so on and so forth. Let me tell you that the only thing Islam is against is evil. If you follow the devil and have a devil mind then yes, by all means, fear Islam, because it is against you one hundred percent. If you follow God and live striving for righteousness and the betterment of the human condition then Islam is for you.

We are told in the Qur'an that the Torah, Psalms, and Gospel are to be read and studied. These scriptures do not contain merely spiritual needs but all your needs. What most people can't understand is that Islam is a complete culture. Every answer to every situation in life can be found within the scriptures. This is why we are to be priests unto ourselves. We need no leaders, no clerics, all we need is Allah. This is how it was in the beginning, this is how it should have been, and this is ultimately the way it will be in the end. Only Allah has the right to guide us, teach us, and love us, because only good ever comes from Our Father-God.

It is time for us to give the political world of Satan back to its horde, while we move forward towards ultimate will of our God. To do the will of your higher self is to do the will of Love, which is the will of Allah. No one can serve two masters nor can anyone divide themselves up into a million pieces. If you look at the globe all you see is division, look at our educational system all you hear is division,

all around you is division. Islam teaches unity and how all things within the universe are interconnected, working in harmony.

Islam, like I said before is a complete culture, it teaches us how to eat, sleep, dress, how to express ourselves in the daily and in the arts. Islam teaches us science, mathematics, philosophy, prayer, dignity of human life, as one subject, one act, and one way of being. This is civilization the way it was and is meant to be by God Himself.

Some maybe saying what I am proposing is a theocratic government. To this is say you are correct. If you say what I am proposing is anarchistic. To you I will say you are exactly correct. Why yes to both? Because my dear friends, Islam and Anarchy have the same goals that is to have a morally guided free organic and perpetually growing society without schemes of organizations.

I suppose you could say it would be Theocratic Anarchy.

Islam is the only way to have both an earthly and a divine salvation.

The corrupt want us to water down our way of life so that they can lead us astray. They offer many appealing things but these promises have no truth, no eternal substance and will whither away into dust. For too long we have allowed evil to have the upper hand. Even though we know the head of the devil has been cut off. It is time we chase the children of darkness out of our homes, out of our minds, out of our foods, out of our hearts, and force them off of the planet. We must rid ourselves of backward progress and enter into forward righteousness. This is why our current society, our current world wants to believe that Islam, the prophets, and even Allah is evil. Don't be deceived don't be fooled study your lessons walk in righteousness and all evil will vanish.

We are what our Ancient Forefathers were and we can achieve greater things than they.

May Allah bless all that you do

Your brother in Islam
